

ProTeam Polyquat 60

Highly concentrated algae preventative for hard-to-kill mustard, black and blue-green algae types.

Refreshingly Simple Pool Care

FEATURES

- Highly concentrated algaecide
- Non-Metallic and Non-Staining
- Kills blue-green "black" algae, mustard algae and green algae

BENEFITS

- Reduces sanitizer consumption
- Non-Staining
- Produces sparkling blue pool or spa water
- Not affected by high chlorine residuals

APPLICATION

- For best performance pH should range between 7.3 and 7.5
- Initial treatment use 11-17 ounces per 10,000 gallons of pool water
- Maintenance treatment use 2-4 ounces per 10,000 gallons of pool water every 5-7 days
- Allow six hours separation between shock application and treatment

AVAILABLE SIZE

1 qt. bottle (12 per case)
