

ProTeam Calcium Up

Increases calcium hardness for enhanced comfort and the prevention of damage to your pool and its equipment.

Refreshingly Simple Pool Care

FEATURES

Serves as a calcium increaser

Water will attempt to dissolve anything it comes in contact with until it reaches its desired hardness

Prevents damage caused by improper water balance

BENEFITS

Helps maintain Calcium Hardness levels between 150-350 ppm

Makes pool water more comfortable and enjoyable for users

Promotes better water balances

APPLICATION

Product should be pre-dissolved in a pail of water adding 1/2 pound to 1 gallon of water

Pour mixture into deep end of pool with pump and filter running

1 pound per 10,000 gallons of pool water will raise Calcium Hardness level 10 ppm

If more than 3 pounds is needed per 10,000 gallons of pool water separate doses and apply at least 12 hours apart

AVAILABLE SIZES

10 lb. pail, 25 lb. pail
