

## ProTeam pH Up

Increases the pH of pool water for proper balance.  
Protects metal fixtures and parts from corrosion.

Refreshingly Simple Pool Care

### FEATURES

- 100% active material
- Corrects proper pool balance
- Protects metal fixtures and parts
- Helps protect pool surface

### BENEFITS

- Provides comfort to users
- Easy to use application
- Improves effectiveness of sanitizer

### APPLICATION

- Proper pH should range between 7.4-7.6
- 8 ounces per 10,000 gallons of pool water will increase pH .1 ppm

Broadcast over entire pool surface to reach desired level

Allow pump and filter to run 3 hours prior to retesting

Repeat treatment if necessary

### AVAILABLE SIZES

1 lb. bag (24 per case), 5 lb. pail
