

ProTeam Microfloc Clarifier

Super clarifier aids in the filtration of tiny particles for brilliantly sparkling water.

Refreshingly Simple Pool Care

FEATURES

- Surrounds and coagulates microscopic particles as small as 2 microns
- Non-metallic, non-staining and non-foaming
- Not affected by shock treatments
- Formulated pH neutral
- Removes both organic matter and dirt through filtration
- Eliminates need for algaecides
- Compatible with all sanitizing systems including biguanides

BENEFITS

- Reduces sanitizer consumption
- Helps maintain sparkling blue water
- Prohibits algae occurrence by physically removing spores
- Effective with all types of filters
- Time separation between shock application and treatment not required
- Reduces operational cost

APPLICATION

Initial treatment use 14 ounces per 10,000 gallons of pool water directly with the pump and filter running

Maintenance treatment use 4 ounces per 10,000 gallons of pool water weekly

Spring and Fall maintenance treatment use 2 ounces per 10,000 gallons of pool water weekly

AVAILABLE SIZE

1 qt. bottle (12 per case)
