

ProTeam Dry Clarifier

Sand Filter Concentrate

Refreshingly Simple Pool Care

FEATURES

- Increases filter efficiency by penetrating the sand with a highly effective Polymer Formula
- Product attracts live and dead matter as small as 2 microns and captures it in the filter
- Restores water quality after heavy bather loads or heavy rains

BENEFITS

- Creates sparkling blue pool water
- Reduces sanitizer consumption
- Each six ounce bag will treat 10,000 gallons of pool water

APPLICATION

Following backwash, slowly pour one level teaspoon of clarifier into the skimmer with the filter running for every 5,000 gallons of pool water

Product can be used on a maintenance basis following each backwash or when cloudy water develops

AVAILABLE SIZE

6 oz. bag (20 per case)
