

ProTeam Filter Magic

Professional strength filter cleaner for removing oil, scale, organics and grime from sand, cartridge and diatomaceous earth filters.

Refreshingly Simple Pool Care

FEATURES

- Complex formula contains wetting agents, surfactants, cleaning compounds and release agents
- Quickly loosens and removes oils, combined organic matters, calcium deposits and biguanide polymer material
- Can be used as a backwash or as a soak cleaner
- Compatible with ALL types of sanitizers

BENEFITS

- Will not affect pool chemistry
- Prevents cloudy water
- Improves water clarity
- Helps protect pool equipment
- Biguanide filters retain full efficiency

APPLICATION

SAND FILTERS

Turn off inlets for all chemical feeders. Close main drain and set filter to backwash position. Slowly pour 6 ounces of product through the skimmer while backwashing

DE FILTERS

If filter can be backwashed, follow sand filter procedures. Remove grids from filter and soak with cleaner from top to bottom. Allow to stand for 5 minutes. Rinse thoroughly with a hose and replace for normal operation.

CARTRIDGE FILTERS

Remove cartridges from filter and spray or soak with cleaner from top to bottom. Allow to stand for 5 minutes. Rinse thoroughly with a hose and replace for normal operation

AVAILABLE SIZE

1 qt. bottle (12 per case)
